Here are the BUIs if you wouldn't mind adding them. I closed the document.

Degradation of Benthos; Bird or Animal Deformities; Fish Tumors; and Fish Consumption BUIs.

Might work on the heading since USS is upstream of UTC project and McClouth is downstream, to avoid confusion.

I'll be working on adding the BASF slides this afternoon. Also, here is a map Lucy made. She said she could make changes if we'd like, just let her know. Or if you like it as is, can add to ppt.

Ok. I think it's a long list though. I forgot I could edit the slides. I can also make the changes to that timeline slide.

On slide 4, can you please fill in the blank for the impairment list?  
Thanks.

Yes, dewatering evaluations have just started. They are actually out there right now sampling for material to run treatability tests on.

Side note – the Jacobs crew is sampling at NW in areas that we had thick layers of sediment in prior sampling. They found no sediment to sample! It is possible currents have changed the NW sediment picture. It has been several years since we performed bathymetry and should likely plan to have it performed again.

Ok, here are better phases and dates for slide 15:

Near Final Design: 2018

Water Treatment Evaluations: In Progress, through 2022

Finalize Design & Permit Applications: 2022/2023

Remedial Action Application Submitted by Partners: Unknown, potentially 2022/2023

Project Agreement Signed: ~2023

Solicitation for Construction: ~2023/2024

Construction: ~2024-2026

Thanks, will rearrange the slides.

How about ball park UTC dates? The schedule will surely come up ...

Is the dewatered-water treatment still being sorted out?

I was thanks! Two comments. I would suggest keeping all the GLLA slides together. It might be too confusing to bounce back and forth. For slide 15 Project UTC Schedule, those dates need to change drastically. I would suggest removing this slide. We really can't project construction at this time, especially with no application for remedial action submitted at this time.

I could not get the file to work on sharepoint. It just had the powerpoint logo.

**Subject:** draft UTC - CA Sites PPT

I will upload and share a draft ppt later this morning.  
Not sure how easy or hard it is to use ppt in share, so if it is a pain I'll just send each of you the file.  
Deadline for LCRD is Friday.  
Thanks!
